

AKS welcome North Kiteboarding

Last Updated Saturday, 25 July 2009

Australian Kiteboarding Sales are excited and very pleased to announce we have been appointed as dealers of North Kiteboarding equipment in Perth's northern region. The name North is synonymous with great quality and top performance and we welcome kites like the Rebel, Rhino and Evo as well as the pro series boards like Jaime Pro, X-ride series and surfboards into our range on offer.

The Rebel has been long associated with performance and ease of use in most conditions, in a simple 5 line configuration and only 4 struts, it has been a favourite among North fans since it's debut. The Rebel is the All rounder and handles Freestyle, Freeride, Waves and big air.

The North Vegas is suited to the freestyler and new school riders wanting true C kite feel, whilst still retaining the best features from a hybrid 5 line model.

North Kiteboarding fits in nicely with our theme of only providing high quality kites and boards to our customers and we look forward to serving our customers new and existing, with an even wider range of quality gear and better selection.

North joins Ozone and Airush in our retail truck and makes up our third and final brand for the season. We will be stocking kites and boards from November and of course will have spares, demo kites and boards which you can test ride right on the beach in front of our shop.

AKS is the only retailer that is situated on the beach so you can get bits and pieces, Pat Love and Flying Objects harnesses and spares as required (when or preferably just before they break). We can also help with trimming your kite and modifying/modernising older bar systems to safer setups by adding new chicken loop systems or safetys. We can also help with leaking bladders and some smaller kite repairs right on the spot. We can also do temporary board repairs to keep your session going.

The staff of AKS are all passionate riders who love the sport and are always available for a chat about gear, or who can set you up on some demo kites and or boards. The ONLY place in Perth where you can demo multiple brands/models of kites back to back to get a REAL FEEL of what suits your style. We also have a wide variety of demo boards from Airush (FS PRO, X-Pact, Protoy, Switch, Choptop and Converse and North (soon: Jaimie Pro, Mallory Pro, X-Ride and Kontakt).

Drop in on us and see the latest offerings from North kites, North Boards, Airush Kites, Airush Boards, and Ozone kites at Pinnaroo Point or call us for all your kiteboarding requirements.

Good winds as always,

Darren Marshall
