

W.A.'s Biggest Demo Fleet

Last Updated Saturday, 25 July 2009

Australian Kiteboarding are customer focused and want you to make intelligent, informed choices when it comes to considerable purchases, like for kites and boards. We reckon you need to ride the gear before you buy it to make sure it fits your style and needs. We don't believe in pressuring you into A or B brand, we just let you decide. Kites cost too much to make a poor choice!

As you can see by our list, we are serious about demoing and if you are concerned about you next kite purchase decision, then you need to maybe pay us a visit and see if the hype really fits the product. You be the judge! It costs you nothing and is available everyday. You can try every board in the rack, all one after the other at our beach in windy, real conditions, and then try different kites. We have 5 different models of 7m kites for instance. I reckon there'll be one there

that will suit you.

Come on up and see why AKS is the service store for real riders. No pressure, no obligation, just options. We play an open hand! Who knows you may fall in love with a kite or board and purchase from us. (That would be nice!)
